

LA - 94

Year	Years of Service During Year	Alternative Amortization
1	100	25,000
2	100	25,000
3	100	25,000
4	100	25,000
5	100	25,000
6	100	25,000
7	100	25,000
8	<u>100</u>	<u>25,000</u>
Total	800	200,000

12. Sutton and Sorbo

Current capacity is $600 \times .85 \times 365 = 186,150$ bed nights

The need is for $420,000 \times .75 = 315,000$ bed nights

But if use control is instituted the need is for $420,000 \times .36 = 151,200$ bed nights

I would disagree and recommend use control
