- 5 assignment types, including written answer
- Automatic grading of multiple choice questions
- Instructional video library
- Simple student enrollment
- Easy instructor & student communication

For ASA & ACAS Exams

Not Sure How to Begin your Fall Course Prep?

Get a jumpstart with two easy steps. We want to make your course prep as easy for you as possible by doing most of the work ourselves. So, we have built the assignments for you following popular syllabus titles. You choose when and how to display them. Of course, you can edit and add to them as well if you want to.

Step One: Select a Book: We have Ready-to-Use assignments. Popular syllabus titles, outlined in Academic GOAL for the corresponding exam, pre-populated with relevant questions from our database. Each question includes detailed solutions. Many include instructional topic videos, common errors, distractors, & more. You choose when and how to display them. Of course, you can edit and add to them as well if you want to. You have 100% editing control.

Step Two: Get a walkthrough of our Academic GOAL professor interface. I'll share my screen and we can go through the steps together. It's quick, easy and intuitive.
